### THE AMBROSE

The **Premier Studio** accommodation is the top digs in this new (opened 2003) Santa Monica hotel. The suite features surround-sound audio in all rooms, sliding glass doors to balconies and limestone baths. Designed especially for guests in the film, music and fashion industries, the serene, off-beat environment is enhanced by real "London" taxi transportation. Film notables enjoy the low-key ambiance and use the hotel for long-term stays. The Premier Studio goes for about \$225 a night.
